WORK EXPERIENCE

Audio-Visual Technician   **August. 2021 – Present**

Kellogg Hotel and Conference Center   *East Lansing, MI*

- Setup and monitored AV equipment for guests and ensured that everything ran smoothly without issues.
- Provided technical support with a wide array of AV and general technical equipment such as laptops for guests.
- Troubleshot and repaired any equipment that wasn't working as intended in a timely manner.

PROJECTS

MSU Majors | *JavaScript/HTML/CSS, jQuery*

- Static website for Michigan State University that pulls together career and academic information for all the majors and puts it in one easy-to-read location.
- The site was created to assist current students with finding information about their majors, while also being a great tool for incoming students to browse and learn about the different majors and career paths effortlessly.

IP Location Lookup | *Python, PyQt5*

- Program that allows you to search an IP address and retrieve the corresponding information such as geolocation, ISP provider, and VPN status via an API request.
- Besides the geolocation functionality, the program can be very useful for quickly checking whether your VPN is correctly working.

Box Office Bombs | *JavaScript/HTML/CSS*

- Addicting web game that tests the user on their knowledge of film box office revenues.
- You have the option of guessing "higher" or "lower" for each film's value and if correct, you will continue guessing until you are incorrect.
